Purchase of Steamer 'Lady Evelyn.'

AUDIT OFFICE, OTTAWA, November 7, 1908.

SIR,—In connection with the purchase of the steamer *Lady Evelyn,* in England, I should like to have the certificate of valuation or other information on which you arrived at the purchase price, viz.: $60,833.34.

A payment of $3,698.67 was made to the Orient Steam Navigation Company for bringing the steamer from England to Canada. There is no certificate on the voucher sent me in support of this payment as to the reasonableness of the amount. Please let me know what inquiry you caused to be made to ascertain that this amount was a fair and just one before you issued the cheque in payment.

I am, sir, your obedient servant,

The Deputy Postmaster General. J. FRASER, *A.G.*

POST OFFICE DEPARTMENT, OTTAWA, November 28, 1908.

SIR,—I have the honour to acknowledge receipt of your letter of 7th instant, addressed to the Deputy Postmaster General, who is in Australia, stating that, in connection with the purchase of the steamer *Lady Evelyn* in England, you would like to have the certificate of valuation or other information upon which the department arrived at the purchase price, namely, $60,833.34.

Under personal instructions from the Postmaster General, the undersigned visited England for the purpose of acquiring a suitable vessel for the transfer of the ocean mails at Rimouski and Sydney. Through the courtesy and assistance of Lord Strathcona and Mount Royal, High Commissioner for Canada, the Admiralty authorities kindly placed at my disposal, free of any charges, the services of their experts, and the purchase of the *Lady Evelyn* was only made subject to a trial test under normal and forced draught on the run between Penzance and the Scilly Isles, and also subject to a satisfactory dry dock inspection. Herewith I inclose copy of a report from the Admiralty, dealing not only with the condition and efficiency of the vessel as displayed by the tests above referred to, but also testifying as to the reasonableness of the price. I might add that the purchase price of this vessel was fixed at £15,000, but on account of interviews with the managing director of the company, and careful handling of the question, and as the company were practically forced to sell, I succeeded in securing the vessel at a reduction of £2,500, although having been previously advised by one of the Admiralty experts that I should close at £15,000 rather than lose the chance of buying the vessel, as other parties were at the same time negotiating for her purchase.

As to your inquiry respecting the payment of $3,698.67 to the Orient Steam Navigation Company for bringing the steamer to Canada, I would state that it must be remembered that the vessel purchased is only 189 feet in length, and therefore, on account of her construction, the greatest difficulty was experienced in being able to store sufficient coal to admit of her being propelled under her own steam across the Atlantic until another coaling depot could be reached. The vessel, therefore, was required to be laden very heavily, and this called for her being handled expertly; otherwise disaster might follow in the heavy seas of the Atlantic.

Upon the recommendation of the Admiralty authorities, I interviewed two firms, who alone at the time were considered qualified to undertake such contract, and both of whom have in the past done some work for the Admiralty. Messrs. Hogg & Robinson at first flatly declined to undertake such work, and, only upon being pressed by the Admiralty authorities, would they agree to give an estimate of cost for which they would be prepared to deliver the *Lady Evelyn* at Quebec. They mentioned that the contract involved too many risks, and the price was too small to make it worth while

for them to undertake the same, but, eventually, the best offer I could get was that they would deliver the *Lady Evelyn* at Quebec at a cost of between £850 and £900 sterling. This, of course, would include payment of coal consumed, wages of captain, officers and crew and their return passage to England, also any supplies required, such as food, &c. The only other responsible company whose name was given to me was that of the Orient Steam Navigation Company, who are, of course, large shipowners themselves. At first they also refused to consider the proposition, and after several interviews with the managing director he consented to submit the proposition to his board of directors, with the result that they submitted an offer to me to deliver the vessel at Quebec for £760 sterling, this to cover all charges to the department, other than insurance of the vessel. After consultation with the Admiralty, I accepted this offer as being the very best available and as being in the interest of not only the Post Office Department, but of the government.

Incidentally I might add that the Orient Steam Navigation Company suffered a loss in connection with this contract, as the vessel encountered very heavy seas so that for several days no headway was made, she eventually reaching the coast of Nova Scotia with her coal supply exhausted, and the company was put to considerable expense in connection with the purchase of extra provisions and coal to complete their contract.

I am, sir, your obedient servant,

The Auditor General. E. S. LASCHINGER, *Act. D.P.G.*

Contract with J. H. Dorion.

AUDIT OFFICE, OTTAWA, November 4, 1908.

SIR,—I find from the accounts rendered by Jos. H. Dorion, contractor for the mail service between the mail steamers and the wharf at Rimouski, that he was paid for the full season—April 15, to November 23, 1907—at the rate of $80 per mail delivery. He renders his accounts as if the service were actually performed. If the *Lady Evelyn* performed the service from September, 1907, why was it necessary that Mr. Dorion should have been employed during the period from September to November 23, 1907?

I am, sir, your obedient servant,

The Deputy Postmaster General. J. FRASER, *A.G.*

POST OFFICE DEPARTMENT, OTTAWA, December 29, 1908.

SIR,—I have the honour to acknowledge the receipt of your letter of the 4th ultimo, asking for an explanation of the payment made to Joseph H. Dorion for the mail service at Rimouski from September 1 to the end of the season, 1907, during which period the mails were received and delivered by the steamer *Lady Evelyn*, owned by the department.

In reply, I beg to say that about the time of the purchase of the *Lady Evelyn*, Captain Dorion was given three months' notice of the cancellation of his contract, but on her arrival at Quebec it was found necessary to make certain changes and do some repairing to the machinery, and, owing to the uncertainty as to the date on which the boat would be ready to undertake the service at Rimouski, the department withdrew the notice of cancellation. Notwithstanding the fact that the *Lady Evelyn* is of low draught, drawing but nine feet six inches when laden, it was found that the water at the wharf at Rimouski was too shallow to navigate the steamer in safety at low tide, and it was, therefore, not considered advisable to release Captain Dorion's steamer

until the necessary dredging could be done, and which resulted in Captain Dorion assisting throughout the whole season in embarking and disembarking the mails.

In addition to the above, it was found that the outside channel also required dredging, but such work was not commenced by the Department of Public Works until the spring of the present year, when Captain Dorion was given the usual notice for the termination of his contract upon June 30 last.

I am, sir, your obedient servant,

The Auditor General. E. S. LASCHINGER, *Act. D.P.G.*

AUDIT OFFICE, OTTAWA, November 3, 1908.

SIR,—The net revenue for the rent of letter boxes and drawers for the last fiscal year was $121,004.21, or only $7,463.57 in advance of the previous fiscal period ended March 31, 1907. Although this period covered only nine months, the revenue collected at the below mentioned offices during that time, was largely in excess of that received for the last fiscal year, and calls for explanation.

Collections amounting to $147.20 were made at Berlin, but refunds of rent and deposits for keys were made, which not only wiped out the collections, but reduced the total revenue by $156.70.

I am, sir, your obedient servant,

The Secretary, Post Office Dept. J. FRASER, *A.G.*

POST OFFICE DEPARTMENT, OTTAWA, November 6, 1908.

SIR,—I beg to acknowledge the receipt of your letter of the 3rd inst., addressed to the secretary of this department, asking for an explanation of the falling off in the amount of box rents collected at certain offices during the fiscal year 1907-8 as compared with the previous year.

In reply I may explain that at all the offices mentioned except Montreal, Quebec, St. John, Winnipeg, Vancouver and Victoria, the system of free letter carrier delivery was established last year, which in itself would account for a reduction in box rents, as a great majority of box holders gave up their boxes when free delivery came into operation.

Another cause for the falling off of the receipts under this head was the change of the fiscal year. At the beginning of 1906-7, or in July of that year, postmasters collected a very large amount of box rents for a full year in advance, so that the rents for April, May and June, 1907, which properly belong to the fiscal year 1907-8, were accounted for in 1906-7, and collections shown for 1907-8 will, when all accounts are examined, be found to cover nine months only, in many cases.

I am, sir, your obedient servant,

The Auditor General. W. J. GLOVER, *Accountant.*
